Description

This spacious property, recently fully modernly refurbished with great taste, lies on a small hill which allows breathtaking views over the valley and the mountains. The house's main entrance leads to the beautiful custom made kitchen with plenty of storage, wooden cabinets, a stone bench, and high-end appliances from Gaggenau. The

house's large windows and doors procure great natural light flowing between kitchen, dining area and living room. On this floor there is also a bathroom with adjacent laundry room with a second entrance. One floor up there are 3 spacious bedrooms that all have en-suite bathrooms, the main bedroom also having access to a terrace with gorgeous views. A roofed walkway leads to the guest house that has a spacious bedroom with a large bathroom. Here, there is another room that could be used as a living room, a lounge or as another bedroom as it has a bathroom as well. The house is surrounded by a lush garden with several terraces and a large pool with solarium with sunshine throughout the day. If you don't feel like lying in the sun anymore, you can challenge your guests to a game of boules on the court in the garden.
